- Programming Languages: C# | C | Java | Python | SQL | GDScript | JavaScript
- Tools: GitHub | Confluence | Jira | Figma
- Technologies: Node.js | Express.js | Next.js | MongoDB | EasyOCR
- Spoken Languages: English (Native) | Cantonese (Native) | Malay (Native) | Mandarin (Intermediate)

RELEVANT PROJECT WORK

Guild Chat Discord Relay Jul, 2026 - Aug, 2026
Personal Project
- Developed a one-way chat relay connecting in-game guild chat to Discord, keeping 230 guild members updated in real time
- Created JavaScript user scripts to capture and forward in-game chat messages to Discord

Recall Guard Aug, 2025 - Nov, 2025
Medical Pantry, Melbourne, Victoria
- Developed REST API endpoints using Node.js and Express.js to handle API requests and data flow
- Collaborated in a 5-person team to design and build an app identifying recalled medical products, reducing manual verification time by integrating EasyOCR with openFDA for real-time authentication
- Managed sprints and technical documentation using Jira and Confluence, keeping the team aligned across multiple 4-week sprint cycles

UniMelb GMC Game Jam Apr, 2025 - Apr, 2025
Top 8 in Overall, Melbourne, Victoria
- Co-developed a 2D roguelike game with inventory and spell systems in Godot as a 2-person team, placing Top 5 in gameplay category
- Applied the Creator principle in GRASP for enemy spawning, improving readability and scalability
- Designed game objects using polymorphic principles, enabling faster iteration and easier extension of gameplay systems

UniMelb CISSA Catalyst Aug, 2024 - Aug, 2024
Top 2 in Overall, Melbourne, Victoria
- Built an interactive map using Next.js and MongoDB, with API-driven data used to dynamically display venue markers

EXPERIENCE

Junior Barista Nov, 2024 - Feb, 2025
Core Cafe, Ara Damansara, Malaysia
- Recorded customer orders and communicated with staff team of 3 to create drinks
- Made a variety of speciality drinks and coffees to serve up to 70 seated customers during peak hours in a high-volume café environment
